
RELEVANT RESEARCH TRAINING AND ROTATIONS/INTERNSHIPS

Location: Utrecht University, Dep. of Developmental Biology (*M.Sc.*)
Time-period: September 2010 – March 2011
Report Title: Study the role of DLG-1 in *C. elegans* hypodermal stem cell like seam cells. A novel method of clonal analysis in *C. elegans*.
Supervisors: *M. Wildwater Ph.D./ Prof. S.J.L. v/d Heuvel Ph.D.*

Location: UMC Utrecht, Dep. of Molecular Cancer Research (*M.Sc.*)
Time-period: September 2009 – August 2010
Report Title: Unraveling the upstream regulation of PDZ-GEFs. A “stress-full” approach to determine the functional regulation of PDZ- GEFs.
Supervisors: *F.J. Zwartkruis Ph.D./ Prof. J.L. Bos Ph.D.*

Location: UMC Utrecht, Dep. of Molecular Cancer Research (*B.Sc.*)
Time-period: September 2008 – January 2009
Report Title: A biochemical approach to identify a Rheb-specific GEF.
Supervisors: *F.J. Zwartkruis Ph.D. / Prof. J.L. Bos Ph.D.*

Location: RIMLS Nijmegen, Dep. of Biomolecular chemistry (*B.Sc.*)
Time-period: February 2008 - July 2008
Report Title: Necrosis and apoptosis caused oxidative modification of Systemic Scleroderma and Diabetes autoantigens in Jurkat and Min-6 cell lines
Supervisors: *A. Lokate Ph.D. / Prof. Dr. G.J. Pruijn*

Location: AZM Maastricht, Diagnostic Cytology/Pathology department (*Vocational*)
Time-period: September 2005- June 2006
Subject: Obtaining standard routine experience in Cytological and Histological techniques.
Supervisor: *Ruud Bucholz/ Ronald Tonk*

Location: NKI-AvL Amsterdam, Diagnostic Pathology department (*Vocational*)
Time-period: January 2005- March 2005
Subject: Obtaining standard routine experience in Cytological and Histological techniques.
Supervisor: *Peter Wisman*
